

HHP

Helping Homeless People

Your ethos

- We can make a cafeteria out of an abandoned building and give homeless people breakfast, lunch and dinner.

Objectives

- We want to help people who are homeless and don't have money, they can clean the forest to earn some money. They can eat at the cafeteria and sleep in the building the cafeteria is because there will be beds too.

Target

- People that have money that they can give to the homeless people and people that have free time so they can make the food.

Volunteers

You can give some money to pay for the materials needed and for the gardeners.

Another type of volunteers can be the gardeners, they must take a test to prove that they have knowledge of gardening.

Logo and the name

HELPING HOMELESS PEOPLE

Bureaucracy

Definition of an ideology. The people who want to create the NGO should define the reason, the end of the NGO, what kind of task is to be carried out and how.

-Preparation of the statutes. The statutes will be the internal rules that govern the NGO, that is, all the aspects related to its operation:

- How the NGO is going to be called You will have to check if the name you have chosen is being used by another NGO in the records of associations, foundations, etc.
- Where is the headquarters.
- What scope of action will it have. It can be local, state or international, for example.

- What is the purpose of the NGO? This point you have had to define it in the ideario.
- What activities are going to be done Answer the question: what will the NGO do to achieve its objectives?
- Who are the members? The foundational members will have to be defined with all their data.
- How it will be financed Keep in mind that the NGO is not for profit, so it must be financed by voluntary contributions from individuals, companies or entities, public or private.
- How decisions are going to be made.
- Determination of the legal form of the NGO.
- Drafting of the founding act.
- Registration of the NGO in the corresponding registry.
- Request a NIF.
- Apply for registration in Social Security.

Potential benefits

- Help homeless people to find a job, so they can earn money by themselves
- To take care of nature
- Reduce pollution

Need structure

We will need gardens to teach the homeless people how to take care of forest and plants

Fund-raising initiatives

We can make ads, we can organise some cheap markets to buy reused things.
